Work Experience

2020

Shipetal

- I was the CTO of shipetal for a year

2022

Seyify

Project Seyify

<https://youtubemusic-nu.vercel.app/>

- I built the UI of a music app with react.
- I used Use state for local state management.
- I used Swiper JS to make create sliders for the music navigation
- I used React-router-dom to navigate between pages in my react app.

2020

Seyi Movies

Seyi Movies

- I built a webpage where you can search for your favorite movies and get redirected to where you can download from.
- I used axios.get to get data from an API.

2020 - 2022

Freelancing

- I built multiple websites/pages for private business owners.
- I started building with plain vanilla javascript at the beginning before moving to react.
