

CHRIS AFAYOMIDE

Fullstack Developer

+234-8142360551 | daraseyi086@gmail.com | <https://seyi.vercel.app>

PROFILE

Fullstack developer with over 4 years experience building scalable web applications across diverse industries.

I have successfully launched learning platforms, e-commerce sites, and blockchain projects

I have worked as an intern, backend developer, frontend developer and as a fullstack developer for various organizations.

Experienced in next,react, react-native, vue, solidity, node.js,postgresql,mongodb, aws

My education includes the Harvard Computer science course (CS50), meta fullstack developer course, udemy fullstack developer course, university at buffalo blockchain course, google's python developer course and I am seeking to learn more.

I love solving problems and applying logic with creativity.

WORK EXPERIENCE

FULLSTACK DEVELOPER

Plusworld Roofing

February 2024 - Present

- I am helping to build the web app for the Plusworld Academy learning platform to teach construction courses.
- Optimized performance and deployment using AWS, ensuring 99.9% uptime for Plusworld's learning platform.
- You can view the deployed version here at <https://plusworld.vercel.app>
- I use typescript, next.js for the frontend
- I use postgres nodejs, aws for the backend and to store data.
- I helped to test and build the dandys beauty app, a child company of plusworld. available on playstore and apple store
- I started as an intern and was later made a permanent staff after three months for my unmatched work ethic

FULLSTACK DEVELOPER (PROJECT)

Afro Royals

November 2023 - July 2024 (Project)

- I independently developed and designed from scratch a fully customizable web app to sell african fabrics
- You can view the deployed version at <https://afrifashion.vercel.app>
- You can view the github repo at <https://github.com/afayomide/afrifashion>
- I worked on both the frontend and backend.
- I used javascript, react for the frontend
- I used mongo, nodejs, google cloud platform for the backend and to store data.

FULLSTACK DEVELOPER (PERSONAL PROJECT)

Audet Blog

August 2024 - Present (Personal Project)

- I independently developed and designed a fully customizable web app to upload and read music blogs
- You can view it here at <https://audet.vercel.app>
- You can view the github repo at <https://github.com/afayomide/audet>
- I worked on both the frontend and backend.
- I used typescript, nextjs for the frontend
- I used postgres, nodejs, google cloud, for the backend and to store data.

FULLSTACK DEVELOPER (PERSONAL PROJECT)

AdotAdvisor

september 2023 - October 2023

- I Independently developed and designed from scratch a fully customizable web app to give information on the stock market
- You can view it here at <https://adotadvisor.vercel.app>
- You can view the github repo at <https://github.com/afayomide/adotadvisor>
- I worked on both the frontend and backend.
- I also built the mobile app version
- You can view the github repo at <https://github.com/afayomide/adotadvisorapp>
- I used javascript, React for the frontend
- I used mongo, nodejs, for the backend and to store data.

FULLSTACK DEVELOPER

alphasniffer

june 2023 - August 2023

- I singlehandedly built and designed from scratch a fully customizable web app for the launch of a crypto project, alphasniffer
- I worked on both the frontend and backend.
- I used javascript, React for the frontend
